Cell Differentiation, 22 (1988) 267, 268
Elsevier Scientific Publishers Ireland, Ltd.

Contents Volume 22

No. 1

T. Murakami, Y. Yasuda, S. Mita, S. Maeda, K. Shimada, T. Fujimoto and S. Araki (Japan)
Prealbumin gene expression during mouse development studied by in situ hybridization (CDF 00450) 1

T. Ohmori and Y. Maeda (Japan)
The developmental fate of *Dictyostelium discoideum* cells depends greatly on the cell-cycle position at the onset of starvation (CDF 00451) 11

V.V. Ivanenkov, A.A. Minin, V.N. Meshcheryakov and L.E. Martynova (U.S.S.R.)
The effect of local cortical microfilament disorganization on ooplasmic segregation in the loach (*Misgurnus fossilis*) egg (CDF 00452) 19

S.A.M. Karim, M. Flor-Henry and D.I. de Pomerai (U.K.)
Glucose metabolism in transdifferentiating and glucose-blocked cultures of chick embryo neuroretinal cells: an inverse relationship between glycogen and δ-crystallin accumulation (CDF 00456) 29

L. Pardanaud, C. Buck and F. Dieterlen-Lièvre (U.S.A.)
Early germ cell segregation and distribution in the quail blastodisc (CDF 00455) 47

T. Arita, R. Okamura, R. Kodama, T. Takeuchi, Y. Kadoya and G. Eguchi (Japan)
Density dependent growth of corneal endothelial cells cultured in vitro (CDF 00454) 61

M. Coltey, F.V. Jotereau and N.M. Le Douarin (France)
Evidence for a cyclic renewal of lymphocyte precursor cells in the embryonic chick thymus (CDF 00457) 71

No. 2

F. Harrison, L. Andries and L. Vakaet (Belgium)
The chicken blastoderm: current views on cell biological events guiding intercellular communication (*Review*) (CDF 00474) 83

C. Kalcheim and V. Leviel (France)
Stimulation of collagen production in vitro by ascorbic acid released from explants of migrating avian neural crest (CDF 00460) 107

E.T. Dobi, F.J. Naya and R.E. Hausman (U.S.A.)
Distribution of R-cognin and choline acetyltransferase in the ganglion cell layer of developing chick neural retina (CDF 00459) 115

J.J. Candelier, P. Gane, P. Couillin, J. Martal and R. Oriol (France)
Developmental modifications of sheep kidney antigens (CDF 00461) 125

A. Andrew, B.B. Rawdon and B. Kramer (South Africa)
Differentiation of intestinal and ectopic endocrine cells from avian gastric and pancreatic endoderm (CDF 00458) 135

A.T. Mikhailov and N.A. Gorgolyuk (U.S.S.R.)
Concanavalin A induces neural tissue and cartilage in amphibian early gastrula ectoderm (CDF 00462) 145

R. Ravazzolo, R. Barresi, C. Garrè, G. Bianchi-Scarrá and F. Ajmar (Italy)
Electrophoretic pattern of NADPH-dependent oxidoreductive activities in K 562 and HL 60 leukemic cell lines (CDF 00463) 155

M. Faure, M. Kalekine, E. Boy-Marcotte and M. Jacquet (France)
Developmental control of the expression of the dihydroorotate dehydrogenase and UMP synthase genes in *Dictyostelium discoideum* (CDF 00464) 159

F.J. Adroher, J.A. Lupiáñez and A. Osuna (Spain)
Influence of saccharides and sodium chloride on growth and differentiation of *Trypanosoma cruzi* (CDF 00465) 165

Acknowledgement 171

No. 3

V. Schmid (U.S.A.)
The potential for transdifferentiation and regeneration of isolated striated muscle of medusae in vitro (CDF 00478) (*Review*) 173

H. Grunz, W.L. McKeehan, W. Knöchel, J. Born, H. Tiedemann and H. Tiedemann (F.R.G., U.S.A.)
Induction of mesodermal tissues by acidic and basic heparin binding growth factors (CDF 00470) 183

S. Hamamoto, W. Imagawa, J. Yang and S. Nandi (U.S.A.)
Morphogenesis of mouse mammary epithelial cells growing within collagen gels: ultrastructural and immunocytochemical characterization (CDF 00466) 191

M.C. Guitton, B.T. Keller, D. Part, J. De Gunzburg, R.T. Borchardt and M. Véron (France, U.S.A.)
S-Adenosylmethionine, *S*-adenosylhomocysteine and *S*-adenosylhomocysteine hydrolase variations during differentiation of *Dictyostelium discoideum* (CDF 00467) 203

W. Karst and H.-J. Merker (F.R.G.)
The differentiation behaviour of MDCK cells grown on matrix components and in collagen gels (CDF 00469) 211

N.M. Troccoli and R.E. Hausman (U.S.A.)
Retina cognin does not bind to itself during membrane interaction in vitro (CDF 00480) 225

G. Trenn, H. Takayama, W.F. Davidson, H.C. Morse III and M.V. Sitkovsky (U.S.A.)
Organization of lymphocyte plasma membrane. Surface protein–membrane matrix interactions in B-cells lines of different stages of differentiation (CDF 00468) 233

J.L. Lognonne and J.P. Wahrmann (France)
A cell surface phosphoprotein of 48 kDa specific for myoblast fusion (CDF 00471) 245

Y. Mishina, Y. Matsui and M. Obinata (Japan)
Stage-specific gene expression in erythroid progenitor cells (CFU-E) (CDF 00472) 259

Cell Differentiation, 22 (1988) 269, 270
Elsevier Scientific Publishers Ireland, Ltd.

Cell Differentiation, 22 (1988) 271–273
Elsevier Scientific Publishers Ireland, Ltd.

Subject Index Volume 22

Acidic and basic fibroblast growth factors, Mesoderm induction, Amphibian embryo, 183
***S*-Adenosylmethionine**, *S*-Adenosylhomocysteine, *Dictyostelium discoideum*, 203
***S*-Adenosylhomocysteine**, *S*-Adenosylmethionine, *Dictyostelium discoideum*, 203
Amphibian embryo, Mesoderm induction, Acidic and basic fibroblast growth factors, 183

Blastodisk, Ooplasmic segregation, Microfilamentous cortex, Cytochalasin D, DNase I, Microinjection, 19

Cartilage induction, Gastrula ectoderm, Concanavalin A, Neural induction, 145
Cell adhesion, Cell cycle, Development, Cell sorting, Chemotaxis, *Dictyostelium discoideum*, 11
Cell adhesion, Retina cognin, Cell–cell recognition, 225
Cell–cell recognition, Retina cognin, Cell adhesion, 225
Cell culture, Corneal endothelial cell, Cell density, Growth, Density dependent, 61
Cell cycle, Development, Cell sorting, Chemotaxis, Cell adhesion, *Dictyostelium discoideum*, 11
Cell density, Corneal endothelial cell, Cell culture, Growth, Density dependent, 61
Cell junctions, Chicken blastoderm, Gastrulation, Intercellular communication, Extracellular matrix, Cytoskeleton, Cell surface, Electrical fields, 83
Cell sorting, Cell cycle, Development, Chemotaxis, Cell adhesion, *Dictyostelium discoideum*, 11
Cell surface, Chicken blastoderm, Gastrulation, Intercellular communication, Cell junctions, Extracellular matrix, Cytoskeleton, Electrical fields, 83
Cell surface, Ectoprotein-kinase, Myoblast fusion, Phosphoprotein, 245
CFU-E (colony forming unit-erythroid), Murine erythroleukemia cell, Sequential gene expression, Induction-specific cDNA clone, 259
Chemotaxis, Cell cycle, Development, Cell sorting, Cell adhesion, *Dictyostelium discoideum*, 11
Chick, Embryonic chick thymus, Lymphocyte precursor cell, Quail, 71
Chick, Neural retina, Transdifferentiation, δ-Crystallin, Glucose metabolism, Glycogen, 29
Chicken blastoderm, Gastrulation, Intercellular communication, Cell junctions, Extracellular matrix, Cytoskeleton, Cell surface, Electrical fields, 83
Choline acetyltransferase, Retina cognin, Neuron differentiation, Ganglion cell layer, Retinogenesis, 115
Ciliary ganglion, Extracellular matrix, Neuronal development, Embryonic muscle culture, Dorsal root ganglion, 107
Collagen gel, MDCK cell, Matrix culture, 211
Concanavalin A, Gastrula ectoderm, Neural induction, Cartilage induction, 145
Corneal endothelial cell, Cell culture, Cell density, Growth, Density dependent, 61
δ-Crystallin, Chick, Neural retina, Transdifferentiation, Glucose metabolism, Glycogen, 29
Cytochalasin D, Ooplasmic segregation, Blastodisk, Microfilamentous cortex, DNase I, Microinjection, 19
Cytodifferentation, Ectopic endocrine tumour, Gut endocrine cell, Intestinal metaplasia, Regulatory peptide, 135
Cytoskeleton, Chicken blastoderm, Gastrulation, Intercellular communication, Cell junctions, Extracellular matrix, Cell surface, Electrical fields, 83
Cytoskeleton, B-Lymphocyte, Differentiation, Plasma membrane, Membrane matrix, 233

Density dependent, Corneal endothelial cell, Cell culture, Cell density, Growth, 61
Development, Cell cycle, Cell sorting, Chemotaxis, Cell adhesion, *Dictyostelium discoideum*, 11
Dictyostelium, Pyrimidine, Gene regulation, 159
Dictyostelium discoideum, *S*-Adenosylmethionine, *S*-Adenosylhomocysteine, 203
Dictyostelium discoideum, Cell cycle, Development, Cell sorting, Chemotaxis, Cell adhesion, 11
Differentiation, Monoclonal antibody, Kidney antigen, Fibronectin, 125
Differentiation, Serum-free culture, Mouse mammary epithelium, Morphogenesis, Ultrastructural characterization, Immunocytochemistry, 191
Differentiation, *Trypanosoma cruzi*, Metacyclogenesis, Growth, Monosaccharide, Sodium chloride, 165
Differentation, B-Lymphocyte, Plasma membrane, Membrane matrix, Cytoskeleton, 233
DNase I, Ooplasmic segregation, Blastodisk, Microfilamentous cortex, Cytochalasin D, Microinjection, 19
Dorsal root ganglion, Extracellular matrix, Neuronal development, Embryonic muscle culture, Ciliary ganglion, 107

Ectopic endocrine tumour, Cytodifferentiation, Gut endocrine cell, Intestinal metaplasia, Regulatory peptide, 135
Ectoprotein-kinase, Cell surface, Myoblast fusion, Phosphoprotein, 245
Electrical fields, Chicken blastoderm, Gastrulation, Intercellu-

lar communication, Cell junctions, Extracellular matrix, Cytoskeleton, Cell surface, 83
Embryonic chick thymus, Lymphocyte precursor cell, Quail, Chick, 71
Embryonic muscle culture, Extracellular matrix, Neuronal development, Ciliary ganglion, Dorsal root ganglion, 107
Extracellular matrix, Chicken blastoderm, Gastrulation, Intercellular communication, Cell junctions, Cytoskeleton, Cell surface, Electrical fields, 83
Extracellular matrix, Neuronal development, Embryonic muscle culture, Ciliary ganglion, Dorsal root ganglion, 107

Fibronectin, Monoclonal antibody, Kidney antigen, Differentiation, 125

Ganglion cell layer, Retina cognin, Neuron differentiation, Choline acetyltransferase, Retinogenesis, 115
Gastrula ectoderm, Concanavalin A, Neural induction, Cartilage induction, 145
Gastrulation, Chicken blastoderm, Intercellular communication, Cell junctions, Extracellular matrix, Cytoskeleton, Cell surface, Electrical fields, 83
Gene expression, Prealbumin, Hybridization, in situ, Mouse development, 1
Gene regulation, Pyrimidine, *Dictyostelium*, 159
Germ cells, Quail blastodiscs, QH1 monoclonal antibody, 47
Glucose metabolism, Chick, Neural retina, Transdifferentiation, δ-Crystallin, Glycogen, 29
Glycogen, Chick, Neural retina, Transdifferentiation, δ-Crystallin, Glucose metabolism, 29
Growth, Corneal endothelial cell, Cell culture, Cell density, Density dependent, 61
Growth, *Trypanosoma cruzi*, Differentiation, Metacyclogenesis, Monosaccharide, Sodium chloride, 165
Gut endocrine cell, Cytodifferentiation, Ectopic endocrine tumour, Intestinal metaplasia, Regulatory peptide, 135

Hemopoietic differentiation, NADPH-oxidizing activity, NADPH-diaphorase, K 562 cell line, HL 60 cell line, 155
HL 60 cell line, Hemopoietic differentiation, NADPH-oxidizing activity, NADPH-diaphorase, K 562 cell line, 155
Hybridization, in situ, Prealbumin, Gene expression, Mouse development, 1

Immunocytochemistry, Serum-free culture, Mouse mammary epithelium, Morphogenesis, Differentiation, Ultrastructural characterization, 191
Induction-specific cDNA clone, CFU-E (colony forming unit-erythroid), Murine erythroleukemia cell, Sequential gene expression, 259
Intercellular communication, Chicken blastoderm, Gastrulation, Cell junctions, Extracellular matrix, Cytoskeleton, Cell surface, Electrical fields, 83
Intestinal metaplasia, Cytodifferentiation, Ectopic endocrine tumour, Gut endocrine cell, Regulatory peptide, 135
In vitro regeneration, Medusae, Striated muscle, Transdifferentiation, 173

K 562 cell line, Hemopoietic differentiation, NADPH-oxidizing activity, NADPH-diaphorase, HL 60 cell line, 155
Kidney antigen, Monoclonal antibody, Differentiation, Fibronectin, 125

B-Lymphocyte, Differentiation, Plasma membrane, Membrane matrix, Cytoskeleton, 233
Lymphocyte precursor cell, Embryonic chick thymus, Quail, Chick, 71

Matrix culture, MDCK cell, Collagen gel, 211
MDCK cell, Matrix culture, Collagen gel, 211
Medusae, Striated muscle, Transdifferentiation, In vitro regeneration, 173
Membrane matrix, B-Lymphocyte, Differentiation, Plasma membrane, Cytoskeleton, 233
Mesoderm induction, Acidic and basic fibroblast growth factors, Amphibian embryo, 183
Metacyclogenesis, *Trypanosoma cruzi*, Differentiation, Growth, Monosaccharide, Sodium chloride, 165
Microfilamentous cortex, Ooplasmic segregation, Blastodisk, Cytochalasin D, DNase I, Microinjection, 19
Microinjection, Ooplasmic segregation, Blastodisk, Microfilamentous cortex, Cytochalasin D, Dnase 1, 19
Monoclonal antibody, Kidney antigen, Differentiation, Fibronectin, 125
Monosaccharide, *Trypanosoma cruzi*, Differentiation, Metacyclogenesis, Growth, Sodium chloride, 165
Morphogenesis, Serum-free culture, Mouse mammary epithelium, Differentiation, Ultrastructural characterization, Immunocytochemistry, 191
Mouse development, Prealbumin, Gene expression, Hybridization, in situ, 1
Mouse mammary epithelium, Serum-free culture, Morphogenesis, Differentation, Ultrastructural characterization, Immunocytochemistry, 191
Murine erythroleukemia cell, CFU-E (colony forming unit-erythroid), Sequential gene expression, Induction-specific cDNA clone, 259
Myoblast fusion, Cell surface, Phosphoprotein, Ectoprotein kinase, 245

NADPH-diaphorase, Hemopoietic differentiation, NADPH-oxidizing activity, K 562 cell line, HL 60 cell line, 155
NADPH-oxidizing activity, Hemopoietic differentiation, NADPH-diaphorase, K 562 cell line, HL 60 cell line, 155
Neural induction, Gastrula ectoderm, Concanavalin A, Cartilage induction, 145
Neural retina, Chick, Transdifferentiation, δ-Crystallin, Glucose metabolism, Glycogen, 29
Neuron differentiation, Retina cognin, Ganglion cell layer, Choline acetyltransferase, Retinogenesis, 115
Neuronal development, Extracellular matrix, Embryonic muscle culture, Ciliary ganglion, Dorsal root ganglion, 107

Ooplasmic segregation, Blastodisk, Microfilamentous cortex, Cytochalasin D, DNase I, Microinjection, 19

Phosphoprotein, Cell surface, Ectoprotein kinase, Myoblast fusion, 245
Plasma membrane, B-Lymphocyte, Differentiation, Membrane matrix, Cytoskeleton, 233
Prealbumin, Gene expression, Hybridization, in situ, Mouse development, 1
Pyrimidine, *Dictyostelium*, Gene regulation, 159

QH1 monoclonal antibody, Germ cells, Quail blastodiscs, 47
Quail blastodiscs, Germ cells, QH1 monocional antibody, 47
Quail, Embryonic chick thymus, Lymphocyte precursor cell, Chick, 71

Regulatory peptide, Cytodifferentiation, Ectopic endocrine tumour, Gut endocrine cell, Intestinal metaplasia, 135
Retina cognin, Cell–cell recognition, Cell adhesion, 225
Retina cognin, Neuron differentiation, Ganglion cell layer, Choline acetyltransferase, Retinogenesis, 115
Retinogenesis, Retina cognin, Neuron differentiation, Ganglion cell layer, Choline acetyltransferase, 115

Serum-free culture, Mouse mammary epithelium, Morphogenesis, Differentiation, Ultrastructural characterization, Immunocytochemistry, 191
Sequential gene expression, CFU-E (colony forming unit-erythroid), Murine erythroleukemia cell, Induction-specific cDNA clone, 259
Sodium chloride, *Trypanosoma cruzi*, Differentiation, Metacyclogenesis, Growth, Monosaccharide, 165
Striated muscle, Medusae, Transdifferentiation, In vitro regeneration, 173

Transdifferentiation, Chick, Neural retina, δ-Crystallin, Glucose metabolism, Glycogen, 29
Transdifferentiation, Medusae, Striated muscle, In vitro regeneration, 173
Trypanosoma cruzi, Differentiation, Metacyclogenesis, Growth, Monosaccharide, Sodium chloride, 165

Ultrastructural characterization, Serum-free culture, Mouse mammary epithelium, Morphogenesis, Differentiation, Immunocytochemistry, 191
